- Google Developer
- Analytical and problem-solving abilities
- Debugging and troubleshooting
- Typing skills: 60WPM

Career Summary

Dedicated and experienced teacher and front-end software engineer.

I have two years of experience working with TiVate, a startup software engineering company in Ghana.

I have one year of experience teaching primary 1 to 3 and mathematics at JHS 1 to 3, and have developed skills in lesson planning, classroom management, and student engagement.

As a software engineer, I possess technical expertise in various programming languages and software development tools. My experience in the software engineering field includes

developing, testing, and deploying software applications, and working collaboratively with cross-functional teams to deliver high-quality products.

Currently pursuing a BSC in Information Technology at the University of Energy and Natural Resources.
